

HOMEFRONT MAY 4, 2019

On May 4th an army of 40 volunteers from the North American Martyrs Parish descended on a home in our town of East Hartford. Their mission to spread God's love. We were given one day to complete a tremendous amount of work. The repairs included replacing 11 windows, painting ceilings and inside and outside trim. They also cleaned up the yard, filling two 30 yard dumpsters. The different teams worked like a well-oiled machine to complete so much work in so little time. A great job by all and a hardy thank you. This is just one way that our parish can spread the love of God within our community.

We received a note from the home owner and family.

The family of Carmela Kozikis extends our deepest thanks and appreciation for the outstanding job that the Homefront Project team completed at her residence on May 4, 2019.

The volunteers are wonderful energetic people who went above and beyond any expectations. The quality of their work is exceptional, and their work ethic is impeccable. Again, we extend our deepest thanks for the work that the team has done and the positive way that they touch the lives of the many people that they help.

Again thank you for your hard work.

Frank Napoletano
